4.1 Tajuk Tesis (Title of the Thesis)

A very good title of thesis with clear subject matter and precise chosen words. By the way, as per sampled title, limited to Palestinians in Malaysia, may need to rename the title to specify or to add phrases like "A Study on Palestinians Students' Perspectives" etc.

Comprehensive literature review that shows student's good understanding of the topic with relevant references.
4.4 Methodologi (Methodology)

Excellent approach by adopting mixed methods in conducting this research. Student shows her ability in deeply with steps and stages in conducting quantitative parts of the research. Need further justification on two points:

1) to justify why she needs to include respondents from the West Bank who may not be suitable to give opinion on Gaza matters.

2) to justify why she needs to include respondents who already came to Malaysia before 2006 while they might not involve in political affairs in Gaza between 2006-2014.

4.5 Analisis (Analysis)

Very good analysis with clear flow of analysis and thorough exploration. She really shows her in-depth approach in dealing with every single issue that need to be addressed in her research.
4.6 Keputusan dan Pertimbangan (Results and Discussions)

4.7 Kekuatan Tesis (Strength of the thesis)
